**Next Meeting – 4 December
Homework – TRIPTYCH IMAGES**

For the purpose of this homework exercise, a triptych is a presentation made up of three (and only three) distinctly separated photographic images. The subject matter is open.

In photography, a triptych might involve taking one image and splitting it up into three different sections. Or it might also be taking three separate images that are related and putting them together to tell a story.

Send 1 Image: If you can use a photo editor, assemble the 3 images into a tryptych, and save a single .jpg

OR Send 3 images: If you cannot use a photo editor, then please send me 3 images which make up your tryptych and I will assemble them. Name them #1, #2, and #3 for correct order.

See the Nelson Camera Club website:
