**Homework : Wabi Sabi – Embracing the Beauty of Imperfection
2 images please**

Wabi Sabi photography is rooted in Japanese philosophy that embraces beauty in imperfection, impermanence, and simplicity. It focuses on capturing the natural decay, age, and asymmetry found in everyday life, rather than manufactured perfection. The goal is to evoke a mood of quiet solitude, humility, and acceptance of the natural cycles of life and the fleeting nature of all things. It is prevalent in many forms of Japanese art.
